NMVTIS Disclaimer

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and [brand](#) history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because [some states](#) are not yet providing their vehicle data to the system.

Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

Before making a decision to purchase a vehicle, consumers may wish to obtain an independent vehicle inspection, a NMVTIS Vehicle History Report, and consult other available vehicle information resources.

The information in NMVTIS includes:

Information from [participating](#) state motor vehicle titling agencies.

Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.

Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.

Most recent odometer reading in the state's title record.

Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.

Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit www.vehiclehistory.gov for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.

CycleVIN Disclaimer

The CycleVIN.com website is an electronic system that contains information on certain motor vehicles titled in the United States. CycleVIN LLC is intended to serve as a reliable source of title and brand history for motor vehicles, but it does not contain detailed information regarding a vehicle's repair history.

The Information provided in this report is current and accurate as of the date and time provided on Page 1. By purchasing this report you agree to hold harmless CycleVIN LLC and its Management from any and all claims including but not limited to financial loss, personal injury and even death. CycleVIN LLC strongly recommends that before making a decision to purchase a motor vehicle, all consumers should have every motor vehicle inspected by a certified inspection facility in your state to ensure that the vehicle does not have hidden damage or substandard repairs. A vehicle history report is not a substitute for an independent vehicle inspection. Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency.
